

Wadis

I'm one of your sheep that has wandered so deep
Into the desert, I'm lost, I'm dying of heat
The water I searched for didn't fulfill my needs
The Shepherd He's calling, He's calling for me
So now I'm ready, to come and follow

I want to sing to you Oh God
Even in the wadis of my life
It's You I trust to hear my cry
And I will praise your Name from the mountaintops when You lift me
high
Oh oh oh oh oh oh, when you lift me high,
Oh oh oh oh oh oh, when you lift me high

It's just like You...to seek me out
It's just like me...to scream and shout
It's just like You...to pick me up
It's just like me...to never give up
It's just like You...to make me tuff
It's just like me...to add the fluff
It's just like You...to say enough
It's just like me...to give it all up
To be just like You!

You're gentle yet strong as You guide me along
I couldn't quite make it, carried me in your arms
Restored deep within as the Spirit begins
To peel back the layers as we go out again
So now I'm feelin', the DUNAMIS RHEMA

I want to sing to you Oh God
Even in the wadis of my life
It's You I trust to hear my cry
And I will praise your Name from the mountaintops when You lift me
high
Oh oh oh oh oh oh, when you lift me high,
Oh oh oh oh oh oh, when you lift me high

Finish it, will do

It's just like You....to love me first
It's just like me....to die of thirst
It's just like You....to break the curse
It's just like me....to break the purse
It's just like You....to see the best
It's just like me....to need the rest
It's just like You....to say enough
It's just like me....to give it all up
To be just like You!
